Delivering babies, delivering on commitments

The government of Canada, as Chair of the G8 in June 2010, committed C$1.1 billion in new and additional funding, and also renewed existing resources of C$1.75 billion, providing a total of C$2.85 billion for maternal, newborn and child health by 2015.

The government of the UK has pledged to double its annual support for maternal, newborn and child health by 2012, providing an annual average of US$1.1 billion to 2015.

The Global Strategy for Women’s and Children’s Health, launched in September 2010 by the United Nations Secretary General, has secured commitments from many governments. These promises to their own people and to the world provide new hope and energy in tackling stillbirths and saving the lives of women and children.

Afghanistan has one of the highest rates of stillbirths and maternal deaths in the world. Here the Government has committed to almost double the number of midwives by 2015.

China will continue to increase its domestic investment in women’s and children’s health.

Mali will strengthen emergency obstetric care, introducing free caesarean services, among other services, by 2015.

Rwanda has pledged to increase by five-fold the number of midwives trained.

Indonesia has committed to ensuring that all deliveries are performed by skilled birth attendants by 2015.
